

INTRODUCTION TO ELECTRONIC WARFARE

**EARN A CERTIFICATE PLUS DIGITAL CREDENTIAL
IN E-DEFENSE FROM SOUTH FLORIDA STATE COLLEGE.**

EW is the act of using the electromagnetic spectrum (EMS) or directed energy to create an advantage by limiting an enemy's ability to maneuver in the EMS.

The E-DEFENSE credential provides students with the necessary skills to become technicians in the field of electronic warfare (EW).

Digital credentials allow you showcase your accomplishments on your resume, email signature, social media, and any other digital platform you desire. Your achievements can be extremely accessible and easily verified so others understand the learning objectives and outcomes that you accomplished.

- EW Technician is a natural fit for military personnel who are transitioning to civilian life and want to combine their operational experience with academic rigor

- Estimated one-year salary impact to the state of Florida for the currently unfilled EW technician positions is approximately \$3 million

- Entry level salaries in EW support within the state of Florida range from \$45,000-\$75,000

- Within 10 years, these positions will generate more than \$27 million in wages for Floridians

- InDyne, Lockheed Martin, Northrop Grumman, and Reliance Test and Technology are currently hiring
